Portfolio: https://mark-nino-bautista-portfolio.pages.dev/

Professional Summary

IT professional with 3 years of experience supporting users, administering Google Workspace, maintaining network infrastructure, and contributing to institutional digital services. Skilled in technical support, Windows 10/11 administration, Google Workspace management (1500+ accounts), LAN/WAN troubleshooting, network cabling, CCTV operations, website maintenance, IT procurement, and vendor coordination. Proven ability to balance day-to-day user support with the reliability of shared systems and campus services in an educational environment.

Core Competencies

- IT Support & Helpdesk (Windows 10/11, hardware/software troubleshooting, endpoint setup, application support)
- Google Workspace Administration (1500+ accounts, user lifecycle management)
- Network Administration (LAN/WAN, TCP/IP, IP management, access points, VLAN fundamentals, cabling)
- IT Infrastructure & Server Administration (domain registration, DNS records, DHCP, router & switch configuration, SSL certificates)
- Web Hosting & Website Maintenance (WordPress, deployment, DNS propagation, hosting provider coordination)
- CCTV Systems Support & Operations
- IT Procurement & Vendor Management (equipment sourcing, supplier coordination, purchase requests, warranty & asset coordination)
- Web Technologies (WordPress, React 18, TypeScript, Tailwind CSS, Vite, Basic SEO)
- Learning & Development (PHP, MySQL, REST APIs, Laravel concepts)
- Technical Documentation & User Communication

Professional Experience

IT Administrator

Lake Shore Educational Institution | *Philippines • 3 years*

- Provided technical support to administrative personnel and faculty, resolving hardware, software, application, and peripheral issues.
- Installed and configured Windows 10/11 operating systems on endpoints and performed imaging and setup.
- Administered 1500+ Google Workspace accounts, managing user lifecycle, provisioning, and day-to-day administration.
- Troubleshot LAN/WAN and TCP/IP connectivity issues, supporting access points, IP management, network cabling, and ISP coordination.

- Assisted with CCTV system operations and institutional website maintenance, ensuring continuous availability of digital services.
- Documented technical issues and maintained clear records of support tickets, resolutions, and user communications.
- Coordinated with users and service providers to resolve escalated technical concerns in a timely manner.
